Preface

North Carolina

The first attempt at colonization was made in 1548 by the illustrious Sir Walter Raleigh.

North Carolina was foremost to resist British tyranny. First pitched battle fought at Alamance May 12, 1771. Declaration of Independence signed at Mecklenburg, 1776. North Carolina lost 35,124 soldiers during the Civil War, having furnished more and lost a greater number of soldiers than any other Southern State (number from North Carolina, 125,000.)

The population is of a singularly homogeneous character, being Virginians, mainly English, Pennsylvanians, mainly Scotch-Irish and German; Scotch-Irish, Scotch Highlanders and Lowlanders, Swiss and French Huguenots. Population, nearly 2,000,000.

North Carolina's position is nearly between the parallels 34 degrees and 36½ degrees north latitude, and between the meridians 75½ degrees and 84½ degrees west longitude. Extreme length, 503¼ miles; extreme breadth, 187½ miles; average breadth, 100 miles; area, 52,286 square miles, of which 48,666 is land and 3,620 is water.

Mt. Mitchell, 6,711 feet high, is the highest peak of the Blue Ridge Range. Forty-three peaks exceed 6,000 feet in height; eighty-two peaks exceed 5,000 feet in height. The mountain region embraces 6,000 square miles. The mountains are covered with deep rich soil and clothed with massive forests to their tops. The walnuts, poplars and oaks attain a size that would hardly be credited by one who had not seen them.

All kinds of fruit attain a high state of perfection and all fruits, vegetables and grains are remarkably productive.

Average mean temperature, 59.6 from 1882 to 1897. Average snow-fall for same period, 11 inches annually. Precipitation, 50.6. Wettest year on record, 1877; driest year on record, 1897.

Guilford County

Established in 1770. Named in honor of Lord North, Earl of Guilford, Prime Minister to King George III.

In the heart of the Piedmont plateau, midway between the mountains and the sea, and located a little west of the central portion of the State.

Nowhere in the State is the hand of improvement more visible than in Guilford county; almost the entire region is dotted over with thriving villages and towns. The homes indicate a high degree of thrift.

It is in this section that the great water-power of the State—estimated by the late State geologist, Prof. W. C. Kerr, at three million horse-power—finds its greatest development.

About three hundred cotton mills are located in this section. Here the cotton is at the door of the manufacturer, and the prime cost of the raw material is therefore less. Living is cheaper than in the Northern States. Mild, healthy winters make little fuel necessary. No ice in winter or draught in summer to make it necessary for manufacturing plants to close down.

The soil of this Piedmont section is very much diversified. This added to favorable climatic conditions, offers great agricultural possibilities. Large areas are devoted to cultivation of the most profitable varieties of tobacco. Cereals and all grasses are cultivated in their highest perfection, enlisting the leading agricultural interests of the population. All the fruits of the temperate zone find a congenial home, apples, peaches, pears, cherries, the small fruits and grapes being unexcelled in excellence, variety and abundance almost every year.

Population in 1907, 89,240.

Greensboro Population 42,179, Including Mills and Suburbs

The Insurance, Educational, Banking, Wholesale, Railroad,
Manufacturing and Commercial Center of North Caro-
lina and the Gateway to the Prosperous South.

Greensboro relies upon no single industry for its present success or future prosperity.

Hard, cold facts, eloquently spoken by figures, which portray the rapidity and certainty with which the city moves forward, and the firm financial foundation upon which the varied industries are based:

GAIN IN BANKING FACILITIES FROM 1900 TO 1907.

BANKS IN 1900, 3		BANKS IN 1907, 7	
Capital	\$ 275,000 00	Capital	\$ 825,000 00

If made into one solid train, the loaded cars of freight coming into Greensboro for 1906 would reach 142 miles.

Fifteen hundred loaded cars of freight pass through Greensboro daily in addition to the freight received by the city.

Greensboro Cotton Manufacturing Plants and Finishing Mill ship twenty-five solid cars of freight daily.

Thirty-five churches of almost all denominations.

The school facilities are second to none in the State. The State Normal and Industrial College and Greensboro Female College are complete in every department, and accommodate 1,000 young ladies. The graded schools of the city are first-class in every respect and have an enrollment of about 4,000 pupils.

POST-OFFICE RECEIPTS.

A PERFECT PIANO

would well be defined as one involving reasonable expenditure, af-
fording the most keen enjoyment for the longest time, with the least
expense and annoyance through necessity of repairs.

I have very little expense in rents, etc., and work for the MANU-
FACTURERS; therefore, am in a position to give you better value for
your money than elsewhere.
